Never before has the world been facing so many problems. The first problem is overpopulation. Despite different plans to control the population, it has risen continually. The problem of overpopulation is the cause of other problems the world deals with. More people need more energy. That leads to the present-day energy crisis. Another problem is pollution. Mankind has destroyed the environment with their activities. Since the Industrial Revolution, environmental destruction has got worse and worse: disappearing forests, rising sea levels, melting pole ice and polluted air. During the lockdown of Covid-19 in early 2020, many countries had better air quality because people stopped using cars and factories stopped working. Humans are responsible for all the world's problems.

21. The passage mentions three main problems the world is facing.

22. Humans have done nothing to stop the population growth.

23. The energy crisis is now over.

24. The environment was better before the Industrial Revolution than now.

25. The writer thinks humans cause their own problems.
