The invention of stethoscopes

Invented by a French physician, René Théophile Hyacinthe Laënnec, the stethoscope is a vital medical tool for (26) _____ doctors to listen to one body's internal sounds that are made by the heart, lungs and so on. The word "stethoscope" originates from the Greek words (27) _____ mean "chest" and "observe". This device was created from an embarrassing situation in which the doctor was supposed to press his ear to a female patient's chest for a medical check-up based on the traditional method. However, he used a sheet of paper and rolled it into a tube to hear the patient's heartbeat. This moment led to the invention of the first wooden stethoscope in 1816. Since then, many other doctors (28) _____ to perfect that invention. Until the early 1960s and the late 1970s, a Harvard Medical School professor, David Littman made and improved a new stethoscope which was not (29) _____ as the previous ones and had better acoustics. Today, a digital stethoscope which uses artificial intelligence is expected to be the future of stethoscopes. It will be connected to a smartphone app that can store the patients' data and (30) _____ heart problems within seconds. Dear Edward,

I'm travelling around Vietnam with my friends, Jason and Walton. Yesterday, we visited Mỹ Sơn Sanctuary in Quảng Nam, one of the most historic sites in Vietnam as well as Southeast Asia. Mỹ Sơn Sanctuary is recognised as a UNESCO World Heritage Site that was built from the 4th century to the 13th century CE. The site is located in a picturesque valley surrounded by high mountains in Quảng Nam and near the start of the Thu Bồn River. The site has a collection of at least 70 ruined Hindu temples that the Chăm built to worship their gods. We

arrived at Mỹ Sơn at around 7 a.m., had breakfast and then began exploring the historic temples. Some of them had some amazing statues of Hindu gods. I was mostly impressed by the good condition of the temple walls. Most wall bricks are over 1,000 years old but still beautifully red. We took lots of photos and made some clips of the temples.

I also learn a lot about the historical values of the site from a local tour guide. We heard about Chă m people's history, watched a Chă m performance with dancing and live music. We also rented some traditional Chă m costumes. I looked quite funny in them, but I kind of enjoyed it. It was so much fun! I bought some souvenirs on the site. I can't wait to give them to my family. Our visit to Mỹ Sơn was really an amazing experience for those who love historical structures. You should definitely visit it.
