 24. A. hike B. am hiking C. hiked D. was hiking
 25. A. unusual dishes B. handmade items C. traditional clothes D. souvenirs

Read the passage and decide whether the statements are True, False or Doesn't say.

There hasn't been a formal, standardised definition of heatwave up to now. However, in general, heatwaves can be defined as an extreme weather event with extended periods of high temperature. Heatwaves mostly occur in the summer when an area has high pressure. The system of high pressure moves slowly and might remain over a region for several days or weeks at a time.

Research indicates that climate change is increasing the likelihood of heatwaves. It is predicted that severe heatwaves could occur more frequently as greenhouse gas concentrations rise.

Heatwaves are not simply uncomfortable. They can cause diseases and even death, especially among elderly people, very young children and other vulnerable groups. In addition, long-lasting extreme heatwaves can harm crops, endanger or kill livestock and raise the risk of wildfires in a forest. They can also cause a sudden rise in electricity as there is a high demand for air conditioning.

Heatwaves are predicted to increase in frequency and intensity as the Earth's temperature rises. If people do not take action to adapt, an increase in heat could result in an increase in heat-related illnesses and fatalities. Therefore, it can be said that increased mortality and illnesses can be a result of even slight increases in temperatures.

26. The definition of heatwave has been agreed on by researchers.

27. Heatwaves can take place easily in summer.

28. Greenhouse gases can be a reason for frequent heatwaves.

29. Heatwaves affect old people more seriously than children.

30. Everyone will die of different diseases if the temperatures increase slightly.

IV. WRITING

Write the second sentence so that it has a similar meaning to the first one.

31. We have two options to visit on our next trip: the ancient tomb or the mausoleum.

We can visit either _____

32. Eddie has never visited the swamps in U Minh Thượng National Park. (FIRST)
