Subject: New laptop!

Hi Kathy,

I'm glad to receive your email.

I think ThinkPod can be the right choice because it suits your need the most. ThinkPod is not very expensive, and you can totally afford it. It is also a lightweight laptop. But I don't think its screen size might meet what you expect. It is only 13 inches. It doesn't seem conformable for you. The brightness of the screen display is not very good but acceptable for schoolwork and entertainment. What really impresses me is its battery life. You might use it nonstop for up to sixteen hours. ZeBook is a good option, too. It shares similar features to ThinkPod. The only thing you need to consider is the price. It is quite expensive.

I can't wait to see your new laptop.

Write back soon,

Sophie

21. ThinkPod costs a lot of money.
22. The screen size of ThinkPod doesn't suit Kathy's need.
23. The display of ThinkPod is too bright to use.
24. ThinkPod has amazing battery life.
25. ThinkPod and ZeBook share the same features.

Read the article about life in the future. Choose the best word (A, B, or C) for each space.

Where will people live?

by Tony Jacobs

Earth is becoming very crowded. In the future, many people believe that the (26) _____ will continue to increase. So, the question is, where will all the people live?

I believe that most people will live on (27) _____. We can build these close to Earth and travel between them. It will be easy to build new space stations when we need more places for people to live. However, there might not be a lot of room for people to move and exercise. They (28) _____ also be very expensive to build, but they will have a great (29) _____ of Earth and they will be safe.

I think other people will live on Mars. There will be large cities with lots of people in them. We will have to build these cities under a glass cover. These places will be even easier to travel between. However, they will be dangerous. If we damage something and the air gets out, it will cause a lot of damage. It will also have less (30) _____ than Earth. This can cause problems for people.

We don't know where we will live in the future, but we will find some interesting solutions for our large population.

26. A. planet B. crowded C. population
 27. A. space stations B. Mars C. the moon
 28. A. won't B. are C. will
 29. A. temperature B. view C. gravity
 30. A. space station B. gravity C. view

Make sentences using the prompts.

31. these tablets / good / for self-study?

=> _____

32. Flash 1 / drive / safely / Flash 2.

=> _____

33. I / think / people / have / find / new / home / another / planet.

=> _____

Put the words in the correct order to make complete sentences.

34. has/ a/ high/ temperature./ Venus/ very

=> _____

35. do/ you/ overcrowded?/ Where/ think/ will/ humans/ live/ when/ Earth/ is

=> _____

Listen to a report about a robot competition. Choose True or False.

36. RoboCON takes place every year.
 37. The robots in the competition are made by high school students.
 38. Four robots take part in the final round.
 39. The robots have to complete four tasks in the competition.
 40. Tiger completes his tasks faster than the other robots.

-----THE END-----
