III. READING

Read the text about electronic devices. Choose the best answer.

Are electronic devices good or bad for teenagers?

Electronic devices are becoming more and more popular with teenagers nowadays. Is this trend beneficial or harmful to teenagers?

On the bright side, electronic devices are good tools for teenagers. Firstly, teenagers can use them for educational purposes. For example, many educational smartphone apps can help teenagers improve their English skills. Secondly, electronic devices offer many ways to relax. After a long day at school, teenagers can sit down and enjoy their favourite films or listen to music on their phones.

However, lack of physical activities, the weakening of eyesight and sleep disorders are often the negative sides of spending too much time on electronic devices. Instead of playing outdoors or sports, many teenagers sit in front of the screen for hours, making them more passive. Many teenagers nowadays are wearing glasses as a result of the uncontrolled use of such devices. Moreover, using electronic devices can disturb a regular sleep pattern as teenagers are too involved in such gadgets without remembering to sleep on time.

In short, electronic devices have both **positive** and negative sides. However, teens should be aware of the amount of time sitting in front of the screen.
