Read the text about cities in the world. Choose the best option (A, B, C, or D).

Many cities in the world are striving to improve the lives of their residents in many ways. Firstly, access to quality healthcare and education is a priority. Many hospitals in those cities have modern facilities with professional staff. In some places, the government even pays for its residents' medical fees. There are many policies to develop schools and universities and improve teaching and learning. Housing is another factor that can influence a person's sense of security. Many cities are providing low-income families with low-cost housing options to help them maintain good living conditions. Besides, some cities are **altering** the way they develop and use energy. Renewable energy, like thermal energy, solar energy, and wind energy, is friendlier to the environment than traditional energy. Many cities prefer using them because they can help save money in the long run. Additionally, some cities are exploring ways to encourage urban farming. It is one of the best ways to improve food access for the residents, develop local economies, reduce pollution, and bring more green spaces. In summary, cities are working towards creating safer, greener, and more convenient living environments.

31. Which can be the best title of the text?
