We are going to visit a primary school in the mountainous area on June.

- A. are going
- B. primary
- C. mountainous
- D. on

IV. READING

Fill in each blank with a word/ a phrase from the box.

service – money – donate – street children – volunteer
--

Many people (31) _____ in their communities. Some people help the elderly or (32) _____ while others clean city parks. Some student clubs require their members to participate in a certain number of hours of community (33) _____ every month. One way that communities work together is by raising funds for people in need. A community might raise (34) _____ for a school to buy new equipment or uniforms by selling baked goods or holding a yard sale. Many communities encourage people to (35) _____ food and clothes to the poor. Volunteering can help people feel like they are giving something back to their communities. Sometimes a person may need help at one time but be able to help others later.

Read the text then decide whether the following statements are true (T) or false (F).

Many students listen to music while they are studying and say that it helps them learn. Many parents and teachers say that music is just distracting, and that students are better studying in silence. Who is right?

In a study, some scientists asked three groups of students to listen to a piece of music by Mozart or a relaxation tape for ten minutes, or just sit in silence for ten minutes. The students then did a 'spatial reasoning' test (a test about remembering shapes and imagining looking at objects from different directions), and the ones who had listened to the Mozart did better in the test.

Taking part in musical activities and learning to play an instrument can improve verbal memory (the ability to remember words). The longer the training lasts, the better the improvement in the memory is. So, there's no excuse to give up the piano lessons!

- 36. Many students think it's helpful to listen to music when studying.
- 37. Teachers say music helps students to better concentrate.
- 38. The students who had listened to Mozart did better in the spatial reasoning test.
- 39. Music training helps to improve memory.
- 40. According to the passage, you should give up the piano lessons.

-----THE END-----
