Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions.

The attraction of job opportunities and better life is a major reason why people go to cities. Currently, half the world's population lives in cities, and by 2050 this will be two-thirds. Despite good opportunities the cities offer, they also bring two of the most **serious** issues: poverty and environmental damage.

Cities continue to face the problem of poverty. There have been efforts by the government to address the problem, but many people still live in **poverty-stricken** areas. High living costs, and a lack of job opportunities and social services all worsen the situation. Nevertheless, governments, NGOs and community groups are all trying to solve the problem by improving housing options, offering job training, building more educational facilities and providing affordable medical care.

Environmental degradation is another serious problem in cities. As cities spread out, the demand for resources will increase. That will lead to an increase in resource consumption, which in turn produces more waste. **This** will have a big impact on the environment, causing serious problems, such as water and air pollution, and even flood flashing. Renewable energy, eco-friendly transportation and effective waste management strategies could help improve the environment in cities.

Question 31. What is the purpose of the text?

- A. To demonstrate the seriousness of poverty in cities.
- B. To bring up the environmental issues in cities.
- C. To discuss poverty and environmental damage in cities.
- D. To suggest solutions to poverty and environmental damage in cities.
